JADE Since
1995
training redefined

Dear Chief Executives,
We respect your time and ask that you read the SILHOUETTE for a few minutes so that you can understand what we have to say about the 'PATHBREAKER' WORKSHOP. Thanks!!!

Dr. Emmanuel Anthony Das.

KINDLY NOTE

You may feel that this material is exhaustive as we live in a micro-chip/fast food World; the reason for us to do so is to give you an in-depth idea about our Training, also how focused we are – WHERE JADE TRAINING IS CONCERNED.

JADE

JADE began operations in 1995 as JADE RESEARCH CENTRE, with a team of professionals. JADE is an organization dedicated to 'empowering Humans' from all walks of Life. We have previously held thousands of Workshops for a large number of People. We have re-defined Training' that is relevant to our field of work. We design the Module to meet specific needs after conducting a needs analysis.

WORKSHOP?

We call our Training a 'Workshop' for the simple reason because it revolves around Facilitation, Interaction, and Derivation with the involvement of each Participant. There are no boring lectures, speeches and lengthy audio-visuals, it's just training, involvement, action games etc. We believe in making our Participants 'to do' rather than tell them 'what to do.'

Here is a unique opportunity to join a training programme and become a winner in life. When you join our Workshop, you can unleash the colossal forces of your mind and drive forward to greater success in Life.

JADE WORKSHOPS

The JADE Workshops cuts across barriers of Religion, Gender, inhibitions and IQ levels. JADE Workshops have been designed keeping in mind all categories of People. One of the strengths of JADE is the way in which the Workshops are executed. A Participant never gets bored when the Sessions are in progress.

Multi-dimensional activities make the Sessions lively and interactive. JADE Experts have adopted various methods to derive hidden treasures in the Participants. This is done without putting pressure. There are voluntary explosions. JADE Workshops are a blend of 'ancient wisdom' and 'modern techniques' making the sessions unique leaving a Participant spellbound.

We ensure that People get the best with the least payables. We work on profits that are reasonable.

AT JADE WE ADHERE TO PROFESSIONAL STANDARDS IN ALL AREAS. WE GIVE TOP PRIORITY TO QUALITY.

WHY TRAINING?

The World is yet to see a Man born perfect. Training is not teaching Men what to do, but a forum for one to expose his/her talents and put them to use for his growth and success. Who is training meant for? Everybody, right from a Student at the crossroads, a confused Executive to a Manager. Training teaches People to climb the Ladder of success in the simplest manner.

Training is essential for all Human beings. There is a sea of difference between Persons who have been trained and those who have not been trained. Hence, we state training is essential for all.

JADE GOAL

Like all individuals and Organizations, we too have our goals set for the future. On one side we have a long-term goal to bring about a paradigm shift with our 'Mission' and 'Vision.'

On the other hand, we propose to educate People on the huge potential that they possess. We have our tools and techniques in place to bring out the best for one's growth and edification. Our ultimate goal is to ensure that 'every individual leaves his footprints on the sands of time.'

This philosophy is derived from the great Indian and Foreign Management Gurus who are a source of inspiration to JADE.

TAPPING AND TOPPING

We have different types of People in the World today. We have achievers and we have paupers.

We have People with tremendous potential - *who know about it, but are unable to unearth it.* We also have People who have tremendous potential - *who do not know about it.*

This is where we play a role by helping Participants to unearth the potential in them and also bringing the latent skills that are hidden in them. We help a Participant with a potential to top his resources for his well-being. We also help People who have the potential deep inside them by tapping it for them.

Hence, we play a role in either way to help Participants to realize the vast resources in them. Our ultimate aim is to prove to a participant that each one is a potential Genius.

OPPORTUNITY FOR ALL

Each Participant is given ample opportunities to come on stage and open up and participate. Individual attention will be given to some Persons who need extra care. This is a participation-centered Workshop and no one will be mute-spectators.

We at JADE have emplaned on a mission to train as many People as possible in as many places as possible on this Planet.

IN ORDER TO ACHIEVE ANYTHING OUTSTANDING IN LIFE, ONE HAS TO TRUST THE IMMENSE POTENTIAL THAT IS HIDDEN WITHIN HIMSELF. – Dr. Emmanuel Anthony Das

VISION

Our Vision is based on a Twin Philosophy - that is Tapping and Topping. We tap the potential of those who are groping in the dark. We top for those who have struggled through the darkness and come to the end of the Tunnel.

Every Human is a sparkle of the divine. Some shine, others are at the crossroads, we reach out to such Persons and offer our expertise. Ultimately our aim is to make this World a better place to reside in.

OUR MISSION

As a Training Organisation

At JADE, we believe in 'empowering People from all walks of Life.'

As an Employer

We shall be fair, nurture talents and shall give Persons ample opportunities to grow.

As a Catalyst

We will go all out and transform the mindset of People.

Growth For All

The very fact that we have created JADE itself is for the all-round growth, be it our own People, Clients, so also Participants.

Where Standards Are Concerned

We shall always adhere to first class quality standards keeping in mind our commitment to deliver.

Different From Others

While others do different things, we will do things very differently that is positive and beneficial to all.

In The Long Run

We shall strive to reach out to every part of the Globe with our mission to 'empower all' to make this World positive, with peace and prosperity for all unmindful of which religion, caste or creed he/she belongs to.

OUR PHILOSOPHY

Our Philosophy is 'teaching a Person to catch Fish.' We do not believe in pampering a Person or giving him/her ready-to-eat type of stuff where they will not know how to manage themselves when we are not there to give them support. We will gear up People so that they will learn how to stand on their own feet later in Life.

We are open to change, but we are careful in what we change and do. Our change pattern is only where the positives are concerned.

WE HAVE DIFFERENT TYPES OF PEOPLE. THE DEGREE OF THINKING DIFFERS, HENCE WE HAVE TECHNIQUES FROM 'SAGES' TO 'MODERN MANAGEMENT GURUS.'

WORKSHOP BLEND

No one will like anything that is monotonous. Same is the case with our Workshops. We have a variety of activities to offer in our workshops. Indeed, the Sessions are a blend of seminar-hall sessions, indoor activities and outdoor events which serves as a balancer in our presentation. All our applications are need-based and is applied at the right time and to the right People.

DOING DIFFERENTLY

Everyone does something, some overdo it, and others do nothing. We have an edge over here. We neither overdo things, nor skip anything. Hence, we claim that we do not have any fly-by-night operations. We have researched and designed several activities in the Workshops which are relevant to the areas covered and apply them. We however state that 'we do things very differently' and in a unique manner. That is what makes the JADE Workshops unique, popular & interesting.

COURSE CONTENT

Crisp course material is given. This material is divided into 2 clusters; one is for reference and the other one is to be used in the Workshop. Since ours is a content-based Workshop, we harp on materials to be used while Training. All the materials created by JADE adhere to quality standards.

KNOWLEDGE VERSUS INFORMATION

Knowledge can be obtained from a variety of sources, including scholastic education, reading books, Society, and influences. But information is important; especially information that is necessary for one's growth and edification, and that is exactly what we are dealing with today. This knowledge is derived from Training experts with years of experience, wisdom, and subject knowledge.

JADE SCHOOL OF THOUGHT

We believe that every Human being is a potential genius. All of us need to stand out as winners. Some make it, many fail to make it. Those who make it know the dos and don'ts of life. Those who fail to make it need to know what to do and what not to do. We believe that these People who are left out can also forge ahead in Life that is what prompted us to build JADE.

JADE GLOBAL ASSOCIATES

JADE has partnered with a global Giant with 'INNOVATIVE EDGE,' Minnesota, USA to exchange know-how and technology. This we have done to offer value-based Training in the easiest possible manner keeping in mind economy and local aspects.

WHEN IT COMES TO THE INSIDE-OUT (A RATIO IS EQUALLY BALANCED) THEORY, WE ENSURE THAT IT IS EQUALLY BALANCED.

CONTENTS

All JADE Workshops have been designed to suit specific needs and may vary for each Module. These Workshops are completely activity oriented and interactive based on practical examples and techniques which ensure professional competence.

The JADE Workshops revolve around Facilitation-Interaction-Derivation and consists of:

-  Chargers
-  Games
-  Therapies
-  Exercises
-  Case Studies
-  Group Dynamics and Techniques
-  Audio Visuals and Video Shows.

The activities in Workshops will vary depending on the Module. All such activities are JADE-researched and have been planned professionally to suit the specific Topics that will be covered.

MULTI-DIMENSIONAL ACTIVITIES

Participant retention is critical for any outcome. Lectures alone will not result in change. Certain activities that comprise the workshop have been planned with the Participants' interests in mind. Everyone is eager to get into another act, which makes everyone not only look forward to participating but also has higher retention levels.

METHODOLOGY

A Japanese proverb reads as follows 'I hear and forget, I see and I remember, I do and I understand.' 'Learning by doing' is the approach used. Care is taken to ensure that every Participant takes part in all the activities and is required to come on stage at least 5 to 10 times during the Sessions.

Ideally to facilitate personal attention, the number of Participants is restricted to 35 in a residential and 40 in a Day Workshop so that there is a high level of interaction. We aim to facilitate learning rather than execute Lectures. We have found this to be the most successful way to make JADE Workshops relevant and interesting.

COUNSELLING

Every Human being, we believe, requires Counseling. That is our top priority when it comes to the entire empowerment process. One of the reasons we emphasize Counseling is that it serves as a warm-up Session for the main Workshop, where Participants are free and open-minded.

Change who you are and you will change what you have. People who are open to change are the ones who succeed in Life.
