JADE training revolves around 'FACILITATION- INTERACTION-DERIVATION' which are wholesome tools for our 'MOTIVATIONAL TRAINING.'

Dear Leaders;

We value your precious time, and would be highly obliged if you take a few Minutes in going through this SILHOUETTE so as to understand all that we want you to know about our Workshop 'ENLIVEN YOUR WORKPLACE.' Thank You in Advance!!!

Dr. Emmanuel Anthony Das, CEO JADE, Pilot Faculty

KINDLY NOTE

This material, though seems exhaustive as in a micro-chip/fast food world, serves the exact purpose of providing you an in-depth idea about the 'JADE ENLIVEN YOUR WORKPLACE' Workshop and also proves how focused we are about the entire training process.

JADE

JADE with a team of professionals began its operations way back in 1995 as JADE RESEARCH CENTRE. JADE is an organisation engaged in 'empowering humans' from different walks of life. In the past 25 years we have conducted numerous workshops for several people numbering to thousands. We have 're-defined training' which is apt to our sphere of activity. After conducting a 'need analysis,' we design the module to suit specific needs.

The JADE Workshops have successfully cut across all existing social and economical barriers viz. Religion, Gender, inhibitions, and IQ levels. JADE workshops have been designed while keeping in mind all categories of people. One of the major strengths of JADE is the way in which the Workshops are executed. A Participant never gets bored when the sessions are in progress.

Multi-dimensional activities make the sessions lively and interactive. JADE Faculty have adopted various methods to derive hidden treasures in the participants. This is done without putting pressure. There are voluntary explosions. JADE workshops are a wonderful blend of 'ancient wisdom' and 'modern techniques' which make the sessions unique and interesting leaving every participant spellbound.

OBJECTIVE

In the present ever speeding world, the need of the hour is to have smart thinking Employees/Staff who will work without being told. Most employees do when told, others who do quote a price and ask 'what will I get if I do it?'

At this point of time, we plan to step in to make that difference by offering our workshop which has quite a lot to reveal thereby empowering staff as well as equipping them to cope with pressures and take things onto their stride.

MEDIUM OF TRAINING IS ENGLISH.

We ensure that people get the best with the least payables. We work on reasonable profits.

AT JADE, WE GIVE TOP PRIORITY TO QUALITY. WE ADHERE TO MAXIMUM PROFESSIONAL STANDARDS IN ALL AREAS. FROM WORDS TO WALK FROM Demeanour TO DELIVERY.

JADE WORKSHOPS

Through our exclusive workshops, JADE has brought about a transformational change in Staff, Employees, Students, Teachers, Faculty, Managers, Leaders, Trainers, and People from all walks of life since its inception in 1995. We are distinct from the rest of those who provide training in that we adhere to quality standards in all aspects and conduct extensive research before structuring the module. Our primary goal is to ensure that the Organization with which we collaborate benefits. We believe in a win-win-win situation for the Organization with which we collaborate, the Participants, and JADE.

VISION

We have focused on training People from all walks of life, from a Student to a top-level Manager, not to mention the importance of training for the common Man, where he/she can change attitudes and enhance skills where he/she will develop. We would have a positive society if everyone developed. Our ultimate goal is to make "this World a better place to live."

MISSION

Since we have tasted success in the past; our mission is to be a leader in the field of motivational Training by providing effective, interesting and useful programmes to Participants and we are confident of achieving yet another milestone with our 'Don Bosco philosophy' of 'whatever we do, we will do it well.' In short, our mission is to help Participants 'Discover the genius in them.'

WHY JADE 'ENLIVEN WORKSHOP'

As productivity levels dwindle and Employees' slack, staff are sagging in their responsibilities Training and development programmes become increasingly important. Such programmes can help retain current Employees, improve their skills, and positively impact the overall quality of workforce; something that is increasingly important in a value-based World.

AIM OF THE WORKSHOP

To train the Workforce to make work meaningful, useful, and enjoyable and help them work more productively. To help Employees identify their fullest potential and put it to use in their daily work.

Yet, Training and development initiatives aren't often a top concern for Industries Today. This, of course, is not surprising given that Leaders are faced with more pressing issues, such as reimbursement, compliance, attrition, quality and beyond. However, Training and development is an important area that Leaders should assess often.

JADE ENLIVEN YOUR WORKPLACE Workshops offers Organizations Training and development initiatives, along with both mandatory - such as those for compliance, privacy, work skill development, etc. and optional, by role.

This Workshop can help retain Staff, improve their skills & positively impact the overall quality of an Organisation - something that is increasingly important.

RETENTION AND UNDERSTANDABILITY

JADE Workshops have been planned with such an accuracy that they are easily understandable and thus Participants retain the knowledge for long after they have attended the Workshop. The hands-on experiential learning is highly motivating and has depth as it is well-researched to suit groups and intellects. During sessions Participant’s conscious Minds are entertained while learning is embedded into the subconscious.

WORKSHOP?

We call our Training a ‘Workshop’ for the simple reason because it revolves around facilitation, interaction, and derivation with the involvement of each Participant. There are no boring lectures, speeches and lengthy audio-visuais. It’s just training, involvement, action games etc. We believe in making our Participants ‘to do’ rather than tell them ‘what to do.’

Here is a unique opportunity for your Staff/Employee to join a Training programme and become more effective than what he/she is. A Person participating in the ‘ENLIVEN YOUR WORKPLACE’ Workshop can unleash the colossal forces of the mind and drive forward to greater success in Life.

COURSE CONTENT

The Course content given to our Participants for refreshing themselves after the Workshop is specially researched and designed by JADE. No part of the material is copied or taken from any Books or Workshops. All the materials created by JADE adhere to quality standards and are in English.

The 'ENLIVEN YOUR WORKPLACE' Workshop includes Classroom sessions, Audio-visuais, Video presentation, Activities and Games related to the topics.

JADE WORKSHOPS CAN CHANGE THE LIVES OF PEOPLE FROM 'WHAT THEY ARE' TO 'WHAT THEY COULD BE,' IN OTHER WORDS 'FROM HERE TO THERE.'

JADE Since 1995
training redefined

OPPORTUNITY FOR ALL

Each Participant is given ample opportunities to come on stage and open up and participate. Individual attention will be given to some Persons who need extra care. This is a Participation-centered Workshop and no Participant will be a mute-spectator.

OUR PHILOSOPHY

Our Philosophy is 'teaching a Person to catch Fish.' We do not believe in pampering a Person or giving him/her ready-to-eat type of paraphernalia where they will not know how to manage themselves when we are not there to give them support. We will gear up Staff/Employees so that they will learn how to stand on their own feet later in Life.

**TAKE CARE OF YOUR EMPLOYEES AND THE EMPLOYEES IN
TURN WILL TAKE CARE OF THE ORGANISATION EVEN IF THE
BOSS IS NOT AROUND.**

JADE GOAL

Like all individuals and Organizations, we too have our goals set for the future. On one side we have a long-time goal to bring about a paradigm shift with our 'Mission' and 'Vision.'

On the other hand, we propose to educate People on the huge potential that they possess. We have our tools and techniques in place to bring out the best for one's growth and edification. Our ultimate goal is to ensure that 'every individual leaves his Footprints on the sands of time.'

This philosophy is derived from the great Indian [Chanakya] and Foreign [Peter Drucker] management Gurus who are a source of inspiration for JADE.

TAPPING AND TOPPING

We have different types of People in the world today. We have achievers and we have losers.

We have people with tremendous potential - *who know about it, but are unable to unearth it.* We also have people who have tremendous potential – *who do not know about it.*

This is where we play a role by helping Participants to unearth the potential in them and also bringing the latent skills that are hidden in them. We help a Participant with a potential to top his resources for his well-being. We also help People who have the potential deep inside them by tapping it for them.

Hence, we play a role in either way to help People to realize the vast resources in them. Our ultimate aim is to prove to a Participant that each one is a potential Genius.

THE TOOLS

A Participant is helped by giving a set of tools. The tangible as well as intangible. Tips and pointers apart from audio-visuals along with activities and techniques on one side and intangible ones like Workshop material, motivational cards, self-improvement posters, CD related to subjects and books to help a Participant to hone his/her skills after the completion of the Workshop.

DOING DIFFERENTLY

Everyone does something, some overdo it, and others do nothing. We have an edge over here. We neither overdo things, nor skip anything. Hence, we claim that we do not have any fly-by-night operations. We have researched and designed several activities in the Workshops which are relevant to the areas covered and apply them.

We however state that 'we do things very differently' and in a unique manner. That is what makes the JADE Workshops unique, popular & interesting. Our Training processes, be it live or virtual both have depth.

At JADE

We enjoy our profession [training] and that makes all the difference!

**IN ORDER TO ACHIEVE ANYTHING OUTSTANDING IN LIFE,
ONE HAS TO TRUST THE IMMENSE POTENTIAL THAT IS
HIDDEN WITHIN US. – Dr. Emmanuel Anthony Das.**

TRAINING METHODOLOGY

As in all our Workshops our methodology is 'learning by doing,' which we have been practicing since our inception as we believe in making People do so that they gain first-hand experience. We keep our presentation minimal. Our research team has not just brought out outstanding activities but has also renewed the old ones and phased out new ones so as to make them easier and more understandable.

The highlight of the activities is the way in which JADE Faculty members process it after completing it by explaining its usefulness and how it can be applied in our day-to-day Life.

NUMBER OF PARTICIPANTS

Ideally to facilitate personal attention and ensure competence the number of Participants are restricted to 40 (with a minimum tolerance level of 10). We however do not conduct Sessions on a mass scale as that would not fulfill our criteria for effective training and thereby defeat our very purpose to empower a participating Member.

CUSTOM MADE WORKSHOPS

Since the Target Audience are spread over various designations the module and activities will vary depending on the portfolios and their responsibilities. This Workshop is designed for the housekeeper to Facility-worker all the way through the CEO. It is simple and easy to understand with a blend of the local language [depending on the request-standards].

OUTCOME

Here's Why You Should Go For The JADE 'ENLIVEN YOUR WORKPLACE' Workshop:

The outcome will depend entirely on the participating Staff. However, on completion of the Workshop a Participant is likely to carry with him/her the following treasures in general after they have adhered to the duration. We believe 'there are no shortcut to Training.'

These aspects will vary with the Topics and duration.

Good Training and development programmes help you retain the right People and grow profits.

- 1] Dedication towards the Organisation.
- 2] Will be inclined to work without being told.
- 3] Will perform better at the Job.
- 4] Will maintain quality standards.
- 5] Will be more punctual, honest and sincere.
- 6] It will be Win-win situation for both.
- 7] He/she will have job satisfaction

Dr. Emmanuel Anthony Das has 28 Years Of Training Experience & Has Authored 10 Books On Self Improvement. He Is the Pilot Faculty.

All outcomes will depend on the durations as we state 'the longer the duration; the better the outcome.' Shortcuts help in Techniques and not Training.

We are open to change, but we are careful about what we change and do. Our pattern of making changes is solely concerned with bringing out the best.
